**FOR IMMEDIATE RELEASE**

**DJO GLOBAL'S SURGICAL DIVISION ANNOUNCES INTRODUCTION OF TURON™ MODULAR SHOULDER SYSTEM FOR SHOULDER JOINT REPLACEMENT SURGERY**

**SAN DIEGO, CA, July 20, 2011** — DJO Global, Inc., a global provider of medical device solutions for musculoskeletal health, vascular health and pain management, today announced the introduction of the Turon™ Modular Shoulder System developed by the Company's surgical division, DJO Surgical. The Turon is the first total shoulder system to incorporate the company's proprietary IMIN™ (Intrinsic Modular Indexable Neck) technology, a patented clocking feature that provides the ability to dial in the humeral neck shaft angle position. This allows the surgeon to fit the patient's anatomy without the need for adjunctive screw fixation and complex jigs and back table fixtures.

Richard J. Hawkins, MD, renowned orthopedic shoulder surgeon at the Steadman Hawkins Clinic of the Carolinas in Greenville, SC, commented, "The Turon IMIN system is quite simple and elegant. It allows us to dial in the humeral neck angle and set it *in situ*. Along with the modularity in different humeral head and glenoid sizes, the Turon shoulder enables us to achieve a more anatomic fit and thus better outcomes for our patients. I am pleased to have helped develop this system."

"We are very excited about our new Turon modular shoulder," said Mike Mogul, chief executive officer of DJO Global. "The addition of Turon along with our industry-changing Reverse® Shoulder Prosthesis demonstrates our leadership and commitment to move orthopedic technology forward in shoulder replacement surgery."

### **About DJO Global**

DJO Global is a leading global developer, manufacturer and distributor of high-quality medical devices and services that provide solutions for musculoskeletal health, vascular health and pain management. The Company's products address the continuum of patient care from injury prevention to rehabilitation after surgery, injury or from degenerative disease, enabling people to regain or maintain their natural motion. Its products are used by orthopedic specialists, spine surgeons, primary care physicians, pain management specialists, physical therapists, podiatrists, chiropractors, athletic trainers and other healthcare professionals. In addition, many of the Company's medical devices and related accessories are used by athletes and patients for injury prevention and at-home physical therapy treatment. The Company's product lines include rigid and soft orthopedic bracing, hot and cold therapy, bone growth stimulators, vascular therapy systems and compression garments, therapeutic shoes and inserts, electrical stimulators used for pain management and physical therapy products. The Company's surgical division offers a comprehensive suite of reconstructive joint products for the hip, knee and shoulder. DJO Global's products are marketed under a portfolio of brands including Aircast®, Chattanooga, CMF™, Compex®, DonJoy®, Empi®, ProCare®, DJO® Surgical and Dr. Comfort®. For additional information on the Company, please visit [www.DJOglobal.com](http://www.DJOglobal.com).
