

DJO, LLC

Dear Sir/Madam:

A DJO Global Company

Today's volatile Healthcare environment has been exceptionally challenging for **Empi, Inc.** ("Empi"), a DJO Global ("DJO") company, due to falling reimbursement rates. Despite our significant investments, the Empi business has continued to decline and we have therefore made the very difficult decision to exit the Empi business and insurance markets and refocus on DJO's core areas of growth such as its bracing, bone growth stimulation, and vascular products.
