INTRODUCTION

Chattanooga is the world's largest manufacturer of rehabilitation equipment for treating musculoskeletal, neurological and soft tissue disorders. For over six decades, Chattanooga has set a benchmark for leadership, reliability and excellence. Our products contribute to better treatment outcomes in hospitals, clinics and home settings worldwide. We lead the rehabilitation industry by example, and through continuous innovation, provide real world solutions for clinicians and their patients.

As the world’s leading brand in rehabilitation, Chattanooga is sold in over 80 countries worldwide. Chattanooga distributors and customers are supported by a highly trained and seasoned team of personnel who oversee new product development, product training and education, order placement, product delivery, and after sales service in addition to providing dedicated sales and marketing support.

Chattanooga is a brand of DJO Global Inc. DJO Global provides solutions for musculoskeletal health, vascular health and pain management. Our products help prevent injuries or rehabilitate after surgery, injury or from degenerative disease, enabling patients to regain or maintain their natural motion.

TREATMENT TABLES

The foundation for any musculoskeletal assessment and treatment is the treatment table. It is also one of the most significant and long standing investments the practitioner will make. The treatment table is one of the foundations of the clinic’s style and helps define the atmosphere of the practice. With more than 60 years experience in the rehabilitation arena, Chattanooga remains the practitioner’s partner in design and equipment.

Chattanooga is proud to present our new and expanded line of treatment tables, offering a broader range of products and price options. From multi-section tables, Bobath treatment tables, to a solid fixed table and offers the practitioner real table solutions.
The Pinnacle of Quality, Craftsmanship and Innovation.

Step up to the Montane difference.
Your table is the core of your practice, and with Montane, you have a trusted partner. Every detail has been designed, engineered and crafted to elegant, exacting standards, delivering a refined experience that maximizes patient comfort while optimizing practitioner access and ease of operation.

Multilayer padding with specially selected density creates a synergy of ideal resistance for the practitioner and comfort for the patient.

High-performance, multidirectional casters and one central brake system allows for easy mobility of the table when not in use.

Ultra-quiet actuator and gas springs powerfully lift patients.

Generous height adjustment range from 19-40 inches.

Proprietary Hallotronic® technology offers enhanced reliability.

Premium upholstery in tasteful colors. Quality workmanship down to the detailed stitching.

Steel is laser cut, coated with a high quality powder coating and features extra-strong, precision robotic welds.

Electric Safety Box offers added security; allows practitioner to disable the mechanics when not in the room.
**Montane® Alps 5 Section Table**

** Features

- 5 section treatment table includes fold down segments in head section
- Electric high/low height adjustment from 19” to 40” (49 to 101 cm) for easy and safe patient transfer and adjustment to the ideal working height for treatment
- Easy access foot switch, accessible from any position around the table 360˚, for simple height adjustment
- Features smooth vertical lift with a capacity up to 330 lbs (150 kg)
- Adjustable head support - Positive/Negative inclinations
- Face hole on head section with removable cushion
- Side brackets for stabilizing belts are standard equipment
- Gas springs assist in the adjustment of head and foot sections

A better treatment platform takes shape.

Platforms tailored to you and your patient

The Adapta® Mesa and Adapta® Summit treatment platforms give you multiple options so you can select what works for you. Need a seven section platform? How about a two or three section? The choice is yours. Using the motorized PosturFlex option to ‘peak’ the center of the table helps accommodate patients who have difficulty lying flat. You can increase flexion or extension to add to the patient’s comfort without fumbling for bolsters, towel rolls or pillows and gradually bring them back to a flat position when treatment is over. Also included are: gas-assist movable sections and a retractable, integrated, EZ Lift caster system that makes moving the platform a cinch. Two-year warranty on cushions. Three-year warranty on base frame and motor.

ADAPTA® I-SKIN PATIENT SURFACE
- Antimicrobial and easy to clean
- Non-slip gently contoured surface helps patients feel secure and comfortable
- Firm enough to keep your elbows and knees from “bottoming out” during manual therapy

SUPERIOR FUNCTIONALITY
- Ergonomically designed so no intrusive handles or knobs get between you and your patient
- EZ Lift Retractable Casters
- Adjustable Gas-Assist Backrest

POSTURFLEX
(optional on Summit 3 and 7)
- Peak the center of the table to accommodate a variety of patients
- Increase flexion or extension to add to the patient’s comfort and gradually bring them back to a neutral position

NOTE: 60000 – Table Paper Holder 20” (51 cm) Wide (TRT and ADP) cannot be used with the Adapta Mesa or Summit Treatment Tables.

Lifting Capacity: 450 lbs (204 kg)
Adapta® Summit 7-Section Treatment Platform

**Features**

- 7 section treatment platform
- Electric high/low from 18” to 37” controlled by foot pedals accessible from all sides of the table
- Independent positioning of the pivoting head and arm sections
- Fold away side panels allow easy access to cervical and shoulder region
- Gas-assist elevates the foot section with the quick-release grab bar
- The leg cushion can be raised to any angle desired up to 80 degrees
- Patient positioning with a hint of cushion contouring within the i-skin foam
- Dual-lever retractable caster system
- Engage the optional motorized postural drain with the push of a button
- Easily convert to Trendelenburg position with a quick raise of the gas-assisted grab bar
- Two-year warranty on cushions. Three-year warranty on base frame and motor

## TECHNICAL SPECIFICATIONS

### TTET-200 Electric Hi-Lo Traction Table
- Mains Power: 120 V, 50 Hz
- Current: 1.6 A
- Power Input: 200 W
- Weight: 230 lbs (104.5 kg)
- Shipping Weight: 230 lbs (134 kg)
- Dimensions: 77”L x 28”W x 19” to 38”H (196 cm x 71 cm x 48 cm to 97 cm)
- Electrical Class: Class 1, Type B

### TTFT-200 Fixed Height Traction Table
- Two sections
- Traction unit pedestal
- 400 lb (181 kg) lifting capacity
- Adjustable height range between 19” to 38” (48 cm to 97 cm)
- Standard hand control
- Optional foot control
- Available in six colors
- Traction unit sold separately
- One-year warranty

## COLOR OPTIONS

- Black: X-0212
- Burgundy: X-0412
- Midnight Gray: X-3312
- Dove: X-0712
- Imperial Blue: X-0112
- Stone Blue: X-6112

**TX® TRACTION UNIT**

- Easy to operate
- 270° pivoting user interface
- Digital monochromatic touch screen interface
- Patient Data Cards record up to 14 treatment sessions
- Store up to 10 user defined protocols
- Intermittent, static and cyclic traction
- Progressive and regressive steps
- User-defined hold, rest and treatment times
- Traction tension parameters: 0-200 lbs
- Built-in safety features:
  - Patient Interrupt Switch
  - Cervical maximum poundage warning
  - Audible signal at the end of treatment and if Patient Interrupt Switch activates
- Two-year warranty

### TRACTION ACCESSORIES

#### FEATURES

**Saunders® Cervical Traction**

This clinical unit pulls at the base of the occiput for more effective cervical traction. It adapts easily to all Chattanooga traction devices. One size fits most patients. One-year warranty.

*Note: Clevis included to mount to traction device.*

**TXS-1 Flexion Stool**

Adjustable height from 13” to 20” (33 cm to 51 cm) feature allows you to place the patient’s lumbar spine into neutral or flexed position for increased comfort. 90-day warranty.

**Deluxe Universal Belt System**

- Designed with simplicity and quick setup in mind
- Universal fit wrap design with hook and loop closures
- Non-slip design allows for evenly distributed anterior/posterior pull force
- Allows you to wrap, set and start treatment in as little as 2 minutes
- 90-day warranty.

*Upholstery can be color-coordinated to match traction table.*
TRACTION ACCESSORIES

A Mobile Traction Stand
- Fully adjustable
- Allows the TX Traction device to be used with most tables
- Traction unit sold separately

B TX Pillow and Cover
- Cervical pillow helps keep neck aligned naturally during traction or sleep
- Helps reduce strain on neck muscles

C Pron Pillo®
Elevates the head and shoulders for added comfort. The raised base allows patients in prone position to breath easier, adding greater patient comfort.

D Horseshoe Pillow
- Provides support for head and neck

E Traction Bolster Set
- Includes two knee bolsters and one ankle bolster
- Lightweight, eliminating the need for flexion stool
- Provides independent leg support

F Overdoor Traction Kit
- Over-the-door cervical traction kit, for patient administered flexion or extension cervical traction

**SAUNDERS® CERVICAL TRACTION**

Safe, Effective Home Treatment

**FEATURES**

**Safe**
- A proven alternative to surgery for some patients
- Traction forces are directed to the back of the head to prevent compression of the TMJ
- Easy-to-read pressure gauge provides total control of the force at all times
- Blow-off valve limits the amount of force that can be applied

**Effective**
- A cost effective option to continuous clinical care
- Innovative design replicates clinical traction and promotes consistency of treatment
- Positioning alternatives allow varying treatment options for the clinician
- Patented pneumatic system ensures reliable force accuracy and leak-free performance

**Easy to Use**
- A portable treatment solution that increases patient compliance and satisfaction
- Patented self-adjusting neck wedges ensure a perfect fit
- Patented pump design incorporates a simple “click in place” mechanism
- Quick and simple patient set-up enables home traction without assistance

**SAUNDERS® LUMBAR TRACTION**

Affordable High-Quality Home Traction

**FEATURES**

**Safe**
- A proven alternative to surgery for some patients
- Friction-free surface ensures smooth motion
- Easy-to-read pressure gauge provides total control of the force at all times
- Blow-off valve limits the amount of force that can be applied

**Effective**
- A cost effective option to continuous clinical care
- Split table design replicates clinical traction and promotes consistency of treatment
- Actively moving treatment surface ensures efficient application of traction
- Patented pneumatic system ensures reliable force accuracy and leak-free performance

**Easy to Use**
- A portable treatment solution that increases patient compliance and satisfaction
- Comes complete — no assembly required
- Non-slip harnesses incorporate belt-organizers for quick set-up
- Patented pump design incorporates a simple “click in place” mechanism
