*The Short Chairback is designed for shorter torsos, so the frame is 13" in height for all sizes.

NOTICE TO DOCTOR:

When using the LSO, LSO Low Profile, LSO Lite or TLSO models with a chairback, please ensure that the chairback is at least 13.5" in height to ensure proper spinal support and prevent discomfort.

For any questions, please contact DJO Global Customer Service at 800.336.6569.

The DonJoy LSO Premium Plus provides rigid anterior and posterior compression from T9 – S1. Similar to the DonJoy LSO with Chairback, but without the lateral supports; the Premium Plus provides a high degree of spinal support while maximizing patient comfort.

The DonJoy LO Lite is a lighter, more breathable version of the LO Low Profile brace, without the rigid anterior panel. The LO Lite provides support for mild lower back pain, from L1 – L5.

The DonJoy Back Brace II TLSO supports the thoracic and lumbar spine from T2 to the sacrum with overlapping rigid panels and an adjustable sternal pad.

The DonJoy Back Brace II TLSO supports the thoracic and lumbar spine from T2 to the sacrum with overlapping rigid panels and an adjustable sternal pad.

The DonJoy SI Belt provides stabilization of the sacroiliac (SI) joint through direct compression. The silicone grip strips prevent the brace from migrating and “lock” the hips.

The DonJoy LO Regular and LO Low Profile braces provide rigid anterior and posterior compression from L1 – S1. The 10” LO Regular model is designed for patients with longer torsos. The 8” LO Low Profile model will accommodate most patients.

L0621

The DonJoy SI Belt provides stabilization of the sacroiliac (SI) joint through direct compression. The silicone grip strips prevent the brace from migrating and “lock” the hips.

LO LITE

PDAC ASSIGNED CODES: L0626 (CST) / L0641 (OTS)

The DonJoy LO Lite is a lighter, more breathable version of the LO Low Profile, without the rigid anterior panel. The LO Lite provides support for mild lower back pain, from L1 – L5.

The DonJoy LSO with Chairback combines the DonJoy LSO Low Profile brace with a rigid chairback frame to provide extended spinal support from T9 – S1 in a modular step-down design.

LSO PREMIUM PLUS

PDAC ASSIGNED CODES: L0631 (CST) / L0648 (OTS)

The DonJoy LSO Premium Plus provides rigid anterior and posterior compression from T9 – S1. Similar to the DonJoy LSO with Chairback, but without the lateral supports; the Premium Plus provides a high degree of spinal support while maximizing patient comfort.

DONJOY BACK BRACES

The DonJoy back brace product line was designed with function and patient comfort in mind. The family of back braces provides support for a broad range of spinal indications; from acute low back pain relief to post-operative support/stabilization. Each of the seven DonJoy back braces offers progressively more support for the spine, yet all share common design features:

FEATURES & BENEFITS

- Simple hook-loop closure for ease of application and removal
- The patented Mechanical Advantage Pulley System provides a powerful, dynamic approach to abdominal compression
- Easy-to-use pull handle(s) enable the patient to quickly adjust the brace to a desired level of comfort
- Breathable interior spacer fabric with outer mesh allows heat to escape without compromising brace performance

DONJOY BACK BRACE II TLSO

The DonJoy Back Brace II TLSO supports the thoracic and lumbar spine from T2 to the sacrum with overlapping rigid panels and an adjustable sternal pad.

L0621
