Vista® TX

The Vista® TX from Aspen improves patient care while saving time, money and storage space. With its innovative height adjustment technology, the Vista® TX is really six collars in one. The correct size is always at hand, reducing storage and inventory costs while improving patient care.

Unique design provides unpackaged patient access through an enlarged tracheal opening while also providing effective motion restriction for all patients.

The innovative design allows for 6 sizes in 1 collar, reducing inventory, reducing waste with sizing errors and saving time.
SPINE Flex Plus
Providing support for mild lower back pain from L1 – S1. Dynamic panels comfortably contour and conform to patient’s body structure. A single-hand adjustment controls support level and comfort for standing and sitting.

HCPCS CODE: L0642 (OTS) / L0637 (CST)

Uncompromising SUPPORT

Supporting the PATIENT
Through increased stability, enhanced motion control and optimal comfort, our complete line of spine bracing offers uncompromising support for all patient needs.

Supporting the CLINICIAN
A full-line of spine bracing, featuring known and proven brands, provides clinics and offices uncompromising support in meeting the needs of you and your patients.

Cyberspine TLSO
Compressive support from a one-hand pull system is paired with a unique linear adjustment capability for stabilization and restriction. The brace may be customized per patient without the use of tools or accessories.

HCPCS CODE: L0644

Posture Extension TLSO
A therapeutically designed orthosis, ergonomically designed to comfortably control and relieve acute pain often associated with osteoporosis, compression fractures, spinal stenosis, strain and excessive kyphosis.

HCPCS CODE: L0627 (OTS) / L0640 (CST)

保费PLUS LSO
Providing support for mild lower back pain from L1 – S1. Dynamic panels comfortably contour and conform to patient’s body structure. A single-hand adjustment controls support level and comfort for standing and sitting.

HCPCS CODE: L0641 (OTS) / L0626 (CST)

LSO Low Profile
Providing spinal support from T9-S1, the rigid unibody frame allows for superior posterior and lateral support while open over the surgical site. The rigid anterior and posterior panels ensure patient comfort and intracavitary pressure.

HCPCS CODE: L0627 (OTS) / L0640 (CST)

Tri-Mod Chairback LSO
Providing spinal support from T9-S1, the rigid unibody frame allows for superior posterior and lateral support while open over the surgical site. The rigid anterior and posterior panels ensure patient comfort and intracavitary pressure.

HCPCS CODE: L0627 (OTS) / L0640 (CST)

SI Belt
Providing conservative treatment of sacroiliac strain and arthritis. The simple design allows for significant reduction in SI joint pain and is excellent for post partum symphysis pubis dysfunction.

HCPCS CODE: L0681
