Introduction

Chattanooga® is the world’s largest manufacturer of rehabilitation equipment for treating musculoskeletal, neurological and soft tissue disorders. For over six decades, Chattanooga has set a benchmark for leadership, reliability and excellence. Our products contribute to better treatment outcomes in hospitals, clinics and home settings worldwide. We lead the physiotherapy industry by example and, through continuous innovation, provide real world solutions for clinicians and their patients.

As the world’s leading brand in rehabilitation, Chattanooga is sold in over 80 countries worldwide. Chattanooga is directly represented in our key markets but also has long lasting relationships with dedicated distributors in the USA, Canada, Latin America, EMEA and Asia Pacific. Our Chattanooga distributors and customers are supported for order placement, training, product delivery and after sales service by a dedicated team of highly skilled DJO® employees based all over the world.

Chattanooga is a brand of DJO Global, Inc. DJO Global® provides solutions to aid musculoskeletal health, vascular health and pain management. Our products help prevent injuries or rehabilitate after surgery, injury or from degenerative disease, enabling patients to regain or maintain their natural motion.

Treatment Tables

The foundation for any musculoskeletal assessment and treatment is the treatment table. It is also one of the most significant and long standing investments the practitioner will make. The treatment table is one of the foundations of the clinic’s style and helps define the atmosphere of the practice. With more than 60 years experience in the rehabilitation arena, Chattanooga® remains the practitioner’s partner in design and equipment.

* GALAXY and MONTANE are table names specific to DJO® tables manufactured by MEDEN-INMED exclusively for DJO
Your table is the core of your practice, and with Chattanooga®, you have a trusted partner. Every detail of the Galaxy Table range has been designed, engineered and crafted to elegant, exacting standards, delivering a refined experience that maximizes patient comfort while optimizing practitioner access and ease of operation.

Galaxy Tables provide a strong, reliable, stylish and comfortable addition to your clinic. Their slim compact design allows easy access to patients and the scissor lifting frame ensures Galaxy’s minimal footprint even when raising patients. Powerful Hallotronic® actuators deliver the strength to lift the heaviest of patients, while the optional hydraulic actuation system gives the choice of complete wireless freedom.
**Galaxy**™ 3 Section

**Product features:**
- Adjustable head section from +40° to -70° with gas spring
- Easy access foot switch, accessible from any position around the table 360°, for simple height adjustment

Hallotronic™ is a trademark by MEDEN-INMED Spółka z o.o.
Montane® Tables

The Montane line is a strong, sturdy, reliable and high quality table that will support your patients and practice for years. Available in a range of color options, Chattanooga® once again offers the practitioner a broad range of real table solutions.

**Robust Mechanical Integrity**
- Steel frame provides stability during treatment and also during patient transition to and from the table
- Boomerang mechanism provides a smooth vertical lift
- Gas springs assist table adjustment and prevent sudden movements

**Quality Design**
- Traditional table designed for stability and patient comfort
- A powerful motor provides fast height adjustment
- Easy access foot switch is accessible from any position around the table, making height adjustment easy and convenient
- One movement engages the wheels to move the table or to stabilize it for treatment

**Upholstery**
Available in 6 fashion colors to complement a variety of settings from contemporary designer trends to classic clinical settings

**Easy Table Movement**
Includes 4 casters and, with one movement, the wheels engage to move the table or to stabilize it for treatment.
