

## GROW YOUR OUTPATIENT & RAPID DISCHARGE PROGRAM SAFELY AND WITH CONFIDENCE

### Benefits for Surgeons

- + Optimizes patient selection, the most critical component of a successful outpatient TJA program.
- + Validated, peer-reviewed algorithm reduces risk and provides pathway assurance. <sup>1,2,3</sup>
- + Clinically proven to offer significantly greater predictive value than ASA or any other risk assessment tool. <sup>1,2,3</sup>
- + Evaluates nine co-morbidity cohorts to assess patient health.
- + Efficient workflow ensures that patient assessments can be performed in about one minute.
- + Includes remote training for surgical and clinical staff.

### Get Started Using OaraScore

- 1 Request a demo at [djoglobal.com/oarascore](http://djoglobal.com/oarascore)
- 2 Receive User Credentials & Start Assessing Patients

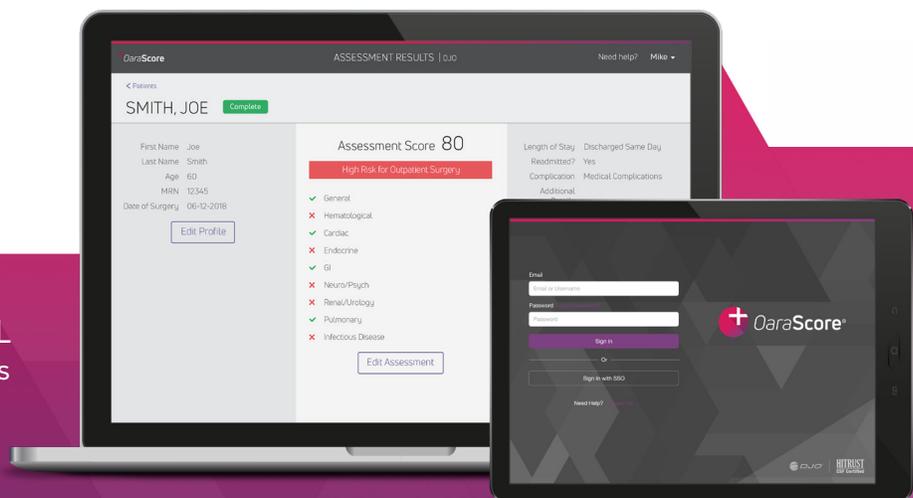

The only risk assessment tool developed specifically to predict successful outpatient TJA outcomes. <sup>1,2,3</sup>

*"By utilizing the OaraScore<sup>®</sup> as the foundation of our outpatient protocol for the past four years, my readmission rate has fallen to 0.4% – far below the national average."*

*- Dr. Michael Meneghini, 2019*

**Significantly greater predictive value than ASA or any other risk assessment tool. <sup>1,2,3</sup>**

# OARAScore® ENABLES YOU TO GROW YOUR TJA OUTPATIENT AND RAPID DISCHARGE PROGRAM WITH PROTECTION FOR YOU AND SAFETY FOR YOUR PATIENTS

## Frequently asked questions

**Q:** How soon can I install and use OaraScore?

**A:** Immediately.

**Q:** What is the process for installing OaraScore?

**A:** OaraScore is a software application accessed through a web browser on any device.

**Q:** Does OaraScore require IT or EMR integration?

**A:** No, OaraScore is a simple, standalone web-based application.

**Q:** Is OaraScore secure?

**A:** Yes. All confidential data is always encrypted at rest and in transit. In addition, OaraScore is HITRUST certified. HITRUST is the most widely-adopted security framework in the U.S. healthcare industry, is a nationally and internationally accepted standard including ISO, NIST, PCI, HIPAA\*, and it represents the latest security requirements providing clarity, consistency and peace of mind for customers.

**Q:** Is OaraScore an application or does it run via an internet browser?

**A:** Browser. OaraScore is Software as a Service (SaaS), a web-based application that only requires the user to have a commonly used browser. No software or data is resident on the user's hardware.

**Q:** Is OaraScore cloud-based?

**A:** Yes, OaraScore is Software as a Service (SaaS) which means no hardware or software is required at the customer site. OaraScore can be accessed from any modern browser.

**Q:** How long does each assessment take to complete?

**A:** For most patients, the assessment can be completed in less than one minute.
