

Dear DJO Global Customer,

DJO, LLC

This letter is to inform you of a change we are making to our DJO Global product portfolio. As you know, the healthcare environment is challenging and reimbursement rates are declining for some categories of medical devices. This healthcare environment has impacted our Empi business negatively despite our investments and best efforts to return that business to sustained profitability. As result, we have made the difficult decision to exit the Empi business. This decision does not impact any of our other branded business lines. Only the Empi line of products is impacted by this decision (Dupel, Action Patch, Saunders Traction, Continuum, Phoenix with garment, Elite, Select, Active, Sensus, Axon, Minnova, Advance ROM, IF3Wave, Hybresis). Not impacted are any other DJO Global branded products including Chattanooga (VitalStim, electrodes, Primera , Element), Vena Flow, and VenaPro to name a few.
